Secretary.
Shares on hand, which can be taken up by applying to the Secretary, at his office, 18 Broad street. se4-td

Trades and Labor Congress.

LONDON, Sept. 6.—The Trades and Labor Congress to-day elected officers for next year as follows: President, Patrick J. Toby (re-elected), Quebec; vice-president, Alexander Macdonald, Ottawa; secretary-treasurer, Wm. Dower, Toronto. On the executive committee, Geo. Bartley, of Vancouver, Wm. McKay, Victoria, and Thomas Salmon, Nanaimo, were elected to represent British Columbia. Quebec was selected as the next place of meeting.

THE WORLD OF SPORT.

To-day's Great International Race for the America's Cup—The Contending Vessels.

Lawn Tennis Junior Tournament—The Lacrosse Championship Match This Afternoon—Cricket.

The great sporting event of to-day, to which the eyes of the entire civilized world will be directed, is the race for the America's cup between the British yacht Valkyrie III, owned by the Dunraven syndicate, and the American "Defender"—built for the express purpose of upholding American yachting supremacy to the order of Mr. W. K. Vanderbilt and his associates. Bulletins will be received at the Hotel Driard during the progress of the race, a direct wire being had with the Commercial Cable Co.'s cable ship, Mackay Bennett, which will be anchored at the starting point. The cup has now been held in America ever since the schooner yacht America brought it across the ocean in 1851—nor does there appear to be more than a living hope that Valkyrie III will break the record of successive reverses for the British champions.

In to-day's great match the Valkyrie allows the Defender 29 seconds time. The result of the measurement works a great surprise. No good judge thought that the English yacht would give over a minute and a half in a thirty mile course to the Defender, yet many capable critics said that the challenger would give a minute. But that she should yield less than half a minute was astonishing to all smart people. However, here are the figures, and they speak for themselves:

Defender: Length on load water line, 88 45; length from after end of main boom to forward point of measurement, 181 79; length from fore side of foremast to forward point of measurement, 73 55; length extreme of spinnaker boom, 73.36; length main gaff, 64 95; length, topmast, 57 42; one-fifth, 45 94; height upper side of main boom to topsail halyards blocks, 125 48; sail area as per rule, 122 26; sailing length as per rule, 100 36.

Valkyrie—Length on load water line, 88 85; length from after end of main boom to forward point of measurement, 186 02; length from foreside of foremast to forward point of measurement, 78 94; length extreme spinnaker boom, same length main gaff, 59 50; length top-mast, 55 98; one-fifth, 44 78; height upper side main boom topsail halyard block, 129 80; sail area as per rule, 114.14; sailing length as per rule, 101.49.

LACROSSE.

VANCOUVER VS. VICTORIA TO DAY.

The Vancouver lacrosse team came down last evening on the Charmer and put up at the Driard hotel. They are individually a very strong aggregation of stick handlers, and are about as good a team as can be got together in any city. Everyone who visits Caledonia park this afternoon will see a hot game from the moment the ball is faced till the referee calls time; it will be a royal battle between two excellent teams, and may the best win. The Victoria's are playing for the honor of victory, and if it falls to their lot to win their numerous supporters on the home ground will forget the bitterness of past defeats. To Vancouver victory means a tie for the championship with New Westminster, with a great chance to wrest the honors from the Royal City. The ball will be faced at 3 p.m. sharp, and a ten minute service will accommodate visitors to the ground after 1 p.m. The following are the teams:

Victoria.	*Position.*	*Vancouver.*
G. Coldwell	goal	J. Quann
A. Belfroy	point	A. E. Suckling
W. Clark	cover point	F. Miller
C. L. Cullin	1st defence	W. Miller
G. Snyder	2nd defence	T. Spain
G. Tite	3rd defence	M. Peard
R. Campbell	centre	D. Smith
J. Bland	3rd home	W. Quann
W. Ditchburn	2nd home	Hawman
A. Macnaughton	1st home	K. Campbell
F. Cullin	outside home	E. A. Quigley
R. Eckhardt	inside home	Ralph
T. Cusack	spare man	J. Richardson
W. Mackenzie	field captain	J. Smith

Referee, J. H. Senkler.

LAWN TENNIS.

FIRST DAY OF THE JUNIORS' TOURNAMENT.

The following is the result of yesterday's play in the juniors' tournament:

A. Pringle beat R. Powell by default; T. G. Wilson beat T. H. Maurice, 6 4, 3 6, 6-5; W. R. Napier beat J. A. Rithet by default; W. R. Wilson beat C. Trimen, 6 4, 6-3; G. C. Johnston beat G Kane, 6-0, 6-0; R. Harvey beat F. B. Ward, 6-4, 6-0; R Hayward beat A. Langley, 6 3, 3-6, 4 6; R. Dunsmuir beat G. H. Lawson, 6 5, 6 3; E. Wigram beat F. T. Cornwall, 6-0, 6 2; G. A. Shuter beat A. R Green, 6 0, 0 6, 6-3; G. D. Ward beat R C. Gamble by default.

Of the above matches the most exciting was that between G. A. Shuter (rec. ½ 15) and A. R. Green (rec. ½ 3). Green won the first set easily, his opponent being unable to get a game, but when they changed ends Shuter turned the tables and won the second set 6-0; in the third set Shuter won with 6-3.

As all the preliminary rounds were played off yesterday the third and fourth rounds will be attempted to be played off on Monday, to leave the semi-finals and final for Tuesday. In order to do this it will be necessary for players to get to the courts as early as possible in the afternoon so those that win in the second round can play off the third on the same afternoon. Fixtures for Monday will appear in to-morrow's COLONIST.

BASEBALL.

NANAIMO'S POSITION.

TO THE EDITOR:—The statement made in last Monday's Times, that the game played here with Vancouver on August 3 was not a schedule game, is incorrect, and I have a letter to prove this. Further, Mr. Craig, of Vancouver, stated on the grounds that this was their last game this season. I might add that the schedule date for the game was August 17, but on that date Vancouver did not put in an appearance nor did they correspond with us on the matter at all. We do not intend to play another game with Vancouver for the championship, but we are willing to play them an exhibition game at any time. Mr. Schultz, of Victoria, is apparently anxious that we should play another game with Vancouver and get beaten, so that his team may claim the championship. Vancouver cannot beat us. They tried four times this season and failed, and I do not think they are anxious to make another attempt or they would have written us. We have not received a scratch of the pen from them since our last game. There is no use in Victoria trying to shirk out of playing us. They have either to play the best two out of three or forfeit the championship. One game must be played here, one in Victoria and the third either on neutral grounds or at a place mutually satisfactory.

JOHN OLIVER,
Secretary Nanaimo Baseball Club.
Nanaimo, Sept. 5.

CRICKET.

VICTORIA V. THE NAVY.

The following team will represent the Victoria Cricket Club against the Navy at the Canteen ground, Esquimalt, to-day: C. E. Pooley, J. F. Foulkes, S. F. Morley, A. G. Smith, W. Wallis, G. C. Fox, W. A. Ward, L. C. Barff, A. T. Goward, B Goward and G. S. Holt. The players are particularly requested to be on the ground punctually at 10:30.

ON THE ALBION GROUND.

Every endeavor has been made to secure a strong list of players to be on the above grounds this afternoon at 1:30, or not later than 1:45, from which Mr. R. H. Swinerton and Mr. Herbert Cuthbert will chose teams to do battle against each other. These games in the past have become popular and very useful to the club, bringing out latent talent to a marked degree and giving some members who are very useful players when they have once got confidence just the opportunities they require.

THE OAR.

THE BAYS' REGATTA.

The officials of the fourth annual regatta of the J.B.A.A., to be held to-day, announce that the first race will be started according to the programme sharp at 2:15 in order that the long list of events may be disposed of by 6 o'clock. The races have all filled well—the entries having already been published—and good sport should be the result.

CAPITAL NOTES.

Captain Howard Ordered to Release the Newfoundland Vessels Seized Off Labrador.

Controller Wallace Leaving for British Columbia—Declines the Customs Commissionership.

(From Our Own Correspondent.)

OTTAWA, Sept. 6.—Official communications were exchanged to-day with parties in Newfoundland representing the owners of the vessels seized on the Labrador coast by Captain Howard. As the result of representations from St. Johns, the controller of customs has wired instruction to Captain Howard to release the vessels seized and to report fully the particulars to the department. The acting premier received a cable from the law firm of Morrison & Morine, and in reply Sir Adolph wired that he had referred the case to the controller of customs and hoped Mr. Wallace's decision would put an end to the whole difficulty.

Controller Wood has declined to rescind the recent order permitting scoured wheat to be mixed with No. 1 hard. The board of trade of Toronto and Montreal approve of the order, but the Dominion Millers' Association do not want it. Mr. Wood says the quality or price of the grain will not be affected by the concession. On the other hand if mixing is not allowed, thousands of bushels would find their way to the seaboard via Duluth instead of through Canadian territory.

Controller Wallace leaves for British Columbia to-morrow to inspect the outports along the frontier.

Mr. Kilvert, collector of customs at Hamilton, has declined the position of commissioner at Ottawa. Chief Inspector McMichael is acting commissioner, but will not accept the office permanently, which is regarded as about the hardest situation in the public service.

THE KAISER AND SOCIALISM.

Anxiety of the Imperial Mind Over the Magnitude and Vitality of the Party.

LONDON, Sept. 6.—An editorial in the Times, commenting on Emperor William's appeal to the Guards against the Socialists, says: It is easy to attach an exaggerated importance to such a phrase, uttered in the heat of a patriotic address. The occasion was one of national rejoicing, and it is hardly conceivable that it was meant to convey a direct threat of military action. All the same it is important, as revealing the anxiety of the imperial mind over the magnitude and vitality of the socialist party. If the Emperor's speeches shall lead the middle classes to meditate seriously upon the danger of socialism, the question will be settled without invoking the Guards, or even resorting to the antiquated and futile expedient of press procedure, except for incitement to crime.

A Berlin dispatch to the Times says that the prohibited Sedan socialistic meetings were held yesterday. Herr Auer, in speaking, declared that the Socialists were not enemies of the empire, and that if a fresh war were to break out with France on account of the imperial provinces of Alsace-Lorraine, the German Socialists would certainly not agree to the cession of the province.

The Vorwaerts declares that it will appeal against the new attack on the freedom of the press.

OTTAWA, Sept. 6.—Prof. E. Stone Wiggins is out with a prediction. He says that owing to the conjunction of the Heavenly bodies, there will be a repetition this month of the great storms of 1883. The coming storm will break out on the Pacific ocean on the 17th inst., and will culminate in the Atlantic on the 21st. Both coasts of the American continent will be dangerous for shipping during the period mentioned.

The World's Fair Tests showed no baking powder so pure or so great in leavening power as the Royal.

THE NEWS FROM LONDON.

Chauncey M. Depew Talks of Experiences of Travel and Discusses Prominent Questions.

Fighting in Cuba—McCarthyite Candidate Elected in South Kerry—Wilhelm at Stettin.

LONDON, Sept. 6.—Chauncey M. Depew, who has just arrived in London, talked in a characteristic way of his experiences, as he sat in a room in the Savoy to-night. Regarding his trip, Mr. Depew said: "I had the usual good time at Hamburg, where I dined twice with the Prince of Wales. From there I went to Lourdes and saw a miracle—at least they called it a miracle. I made quite a long tour also in Germany, France and Belgium. There is a great improvement in business manifest in all three of these countries and likewise in England. The whole world will experience an era of prosperity in the next five or six years, the United States especially. Indeed, it has already started. We have just reaped the greatest crops in our history. Wages are voluntarily being increased, and our securities are increasing in value and are being sought by foreign investors. I find that Europe is rapidly regaining confidence in American securities." Mr. Depew was asked by his interviewer what his observation showed to be the status of the Irish question, to which he replied: "I think the Conservatives who have come into power in England will give Ireland Home Rule in some shape, probably just as good as the Liberals would have given. Like ourselves the English are peculiar, and want to be fooled. It is not the medicine to which they object, providing the label on the bottle is satisfactory."

Advices received from Havana confirm yesterday's advices that the insurgents attacked a Spanish convoy under command of General Linarres between Santiago and Venta Casono. The fighting is said to have lasted an hour. The insurgents had seven killed and the Spanish had two officers and five soldiers killed and twenty-one wounded.

At the trades union congress at Cardiff to-day a resolution was passed unanimously protesting against Emperor William's interference with the liberty of the press, and expressing sympathy with the workingmen of Germany in their struggle for liberty.

At a banquet this afternoon at Stettin, Herr Koeller, president of the provincial diet, proposed a toast to the Emperor and Empress, in which he expressed the loyalty of Pomerania in prosperity and adversity. In conclusion he called for three cheers for their majesties.

Herr Fischer, secretary to the minister of the interior, was found dead to-day in a wood at the outskirtos of Buda Pesth with a bullet wound in his body. It is supposed that he was murdered as his watch and chain were gone.

The Vienna correspondent of the Daily News says that cholera is raging at Broussa and that forty deaths occurred daily. Broussa is a city of Asia Minor, about fifty-seven miles southeast of Constantinople.

The Standard announces the suspension of the Banco Potosi, of Sucre, Bolivia, due to large advances to the silver mining interests.

Rt. Hon. James Lowther, M.P., presided at a meeting to-day at which it was resolved to address a manifesto to the English people in favor of the adoption of a protective policy with preferential treatment in favor of British colonies.

The parliamentary election in South Kerry, where so much bitterness was caused by the nomination of a candidate by the Healyites in opposition to a candidate previously put forward by the followers of Mr. McCarthy, has resulted in the choice of Farrell, the McCarthyite nominee, by 1,203 votes again 474 votes cast for Murphy, the Healyite candidate.

The mortgage bondholders of the New York, Pennsylvania & Ohio Railway Company have decided to authorize foreclosure proceedings and accept the proposition contained in the Erie reorganization plan recently formulated by J. P. Morgan & Co., of New York and London.

The Sun says news has reached London that Daisy Melville, who went to South Africa in the Gaiety Girl Company, committed suicide there. Miss Melville was only 19 years of age, and exceedingly pretty.

The man who attempted to explode a bomb in the vestibule of Rothschild's banking house yesterday refuses to reveal his identity. All that he will say is that he is a deserter from the army. In the hope of obtaining information as to his antecedents the police will distribute 500 photographs throughout France. The bomb was composed of from sixty to seventy grammes of chlorate potassium and fifteen to twenty grains of ordinary gunpowder.

The Archduke Ladislas died to-day from injuries he received by the accidental discharge of his gun while hunting on Monday.

The Emperor William reached Stettin to-day on board the dispatch boat Grillo. Almost simultaneously the Empress arrived by the railway train. The streets were thronged with people and the boats in the harbor were elaborately decorated in honor of the imperial visitors. The Emperor and the Empress and their suites rode through the principal streets of the city in carriages. The streets were lined with school children, and everywhere the greatest enthusiasm was evinced. At a triumphal arch which had been erected in front of the Rathhaus, the burgomaster read an address of welcome. The Emperor William reviewed the guard of honor and subsequently held a reception, which was attended by the civil functionaries.

The best is what you want when you are in need of a medicine. That is why you should insist upon Hood's Sarsaparilla.

NEWS OF THE PROVINCE.

The Delta Dyking Appeals—Chinese Case at Nanaimo—Mining Near Nelson.

Chinamen for Georgia—Vancouver's New Chief of Police—Arrival of Governor Chapleau.

(Special to the COLONIST.)

VANCOUVER

VANCOUVER, Sept. 6 —News was received from Brockville yesterday of the death of Mr. James Fletcher, father of Mr. John Fletcher, chief of the C. P. R. Telegraph Co.'s operating staff.

A west bound freight ran into a mud slide west of Kamloops on Wednesday. Engineer Randall had his leg broken and was severely scorched. Several flat cars were wrecked.

The Hawaiian schooner Americana was towed to sea lumber laden yesterday. She had on board lumber to the value of $8,380

In Chief Ward's address to the officers of the police force, he told the men that he was going to maintain the force under strict discipline and have no smoking or chatting on duty, etc. The chief's appointment is popular here.

A large number of Chinamen went by special train last night to Atlanta, Georgia, to practise for the production of the storming of Wei-Hai-Wei, at the international exhibition in that town.

Lady Thompson and her three daughters left by yesterday's train for Montreal.

Prof. Oleskow, of Wemburg University, Austria, is registered at the Hotel Vancouver. He is accompanied by a practical farmer. They will look over the lands in the province suitable for agriculture with a view of possibly recommending the Austrian government to direct Austrian emigration this way.

The Principal of the Tacoma Seamen's Institute, Capt. Daniel Beck, lectured here last night in the interests of an institution for the adult blind.

Lieut.-Governor Chapleau and party arrived on to day's train.

The magnificent saddle horses of the Governor-General left here yesterday by freight. In the car every preparation was made for their comfort, the plumber having fitted up a steam-heating apparatus to warm the car, but on account of carelessness the steam-regulating cock was left off entirely, and after the horses were shut up and the groom had left steam commenced to fill the car. After about an hour and a half run from here it was noticed that something had gone wrong with the steam, and opening the car both were found lying dead on the floor. One was considered to be of special value.

The residence of J. Lester, at Fairview, Vancouver, has been entirely destroyed by fire.

WESTMINSTER.

WESTMINSTER, Aug. 6.—The Brackman & Ker mill has resumed operations. The McGillivray pipe works has also started running.

The Delta dyking appeals are being considered by Judge Bole. Those who have built dykes object to being assessed for a projected large dyke for the whole community.

Chas. Knox died suddenly at the provincial gaol last evening. A post mortem examination will be held.

NANAIMO.

NANAIMO, Sept. 6.—A mineralogical specimen having all the appearance of a petrified honeycomb, found by Mr. A. Raper on Texada Island, is a unique specimen, and shows that Texada is a wonderland.

The barque Ceylon, 647 tons, Capt. Calhoun, 22 days out from Honolulu, was towed in yesterday by the Vigilant to load coal for return. Capt. Calhoun reports a quiet, uneventful voyage, unmarked by casualties. He could not substantiate the rumor that cholera had broken out in the Sandwich Islands, everything being absolutely normal at the time he sailed.

Dr. Eberts is of the opinion that though provincial officer Stephenson was badly crushed by the runaway accident yesterday he will ultimately recover, but it will be a matter of some time.

The police this evening arrested Ah On, a Chinese woman who was recently up before Judge Crease in Victoria, on a charge of leading a disorderly life, and discharged on a promise to reform. The woman left Victoria in company with her alleged husband some weeks ago, and has since renewed her former vicious life. Acting upon the information of certain influential Chinese of Victoria, Chief Crossan arrested the woman and she will come up for trial to-morrow.

George Gowland, formerly with the New Vancouver Coal Company, leaves in the morning for the old country, where he has obtained a responsible position with a London firm. Mrs. Gowland accompanies her husband.

NELSON.

(From the Tribune.)

At the No. 1 the concentrator is kept running night and day. The ore is concentrated about 6 to 1, the concentrates averaging 200 ounces of silver to the ton. The shipments average three tons of concentrates and one ton of high grade ore per day.

Mr. Stephenson, of Philadelphia, has a couple of men sinking in the tunnel on the Highlander. He made a trial shipment of a dozen sacks of selected ore last week, which it is estimated will average over 200 ounces silver to the ton.

At the Skyline very little work has been done since the fires. This property has a contract to supply its total output up to January to the Pilot Bay smelter, and is shipping about eleven tons per day, keeping three four-horse teams busy.

At the Highland mine Messrs. McLeod and Luther have eight men at work in the lower tunnel, which is now in about 400 feet. The ore chute was struck in this tunnel after 250 feet had been driven. At a distance of 280 feet from the mouth of the lower tunnel an upraise was started and driven about 100 feet. It is expected that about 75 feet more will bring it to the surface. In the upraise the vein is about four feet wide, and carries from eight inches to a foot of solid galena, the remainder being concentrating ore.

After spending 14 months in the Big Bend country, Wellington Kinney, who is well known in the Kootenay Lake country, has accepted a job at the North Star mine, near Fort Steele, in East Kootenay. On his way out he heard of a discovery in Jordan pass, about eighteen miles from Revelstoke, that is said to be a wonderful showing on the surface. The discoverers located nine claims on the ledge. The North Star expects to ship about forty tons of ore a day this winter.

Porter Brothers, who have the contract for the bridging and tracklaying on the Kaslo & Slocan railway, had the end of track opposite McDonald's halfway house, over 10 miles out from Kaslo, on Thursday. A mile to a mile and a half of track is laid daily, and the road should be in operation through to Sandon by the middle of October.

The extension of the Revelstoke branch of the Canadian Pacific, south from the Wigwam to the head of Upper Arrow lake, is to be built this fall.

Superintendent Roberts has everything running smoothly at the Blue Bell mine, and his force of forty men keep the daily output at something over 200 tons. The cost of mining has been reduced to something like 70 cents per ton. The ore gives many evidences of improvement and will doubtless carry more silver as depth is gained. The ore mined at present carries considerable nickel. Nothing is being done with the copper ledge discovered last spring. This is six and a half feet wide, and carries from 12 to 15 per cent. copper.

A rumor has been in circulation that Canadian Pacific officials had acquired a controlling interest in the Slocan Star mine. Should this rumor prove correct, the output of this great producing property will be moved by the Canadian Pacific, and a smelter erected somewhere on that company's lines.

Tom Trenery, of Three Forks, and Pete Gesness, of New Denver, report operations under way at several mines along the south fork of Carpenter creek. At the Reco 25 men are at work and two new tunnels will soon be started. At the Goodenough a carload of high-grade ore is ready for shipment. Jack Thompson is at work on the Reciprocity. The Idaho vein is said to have been caught in the Cumberland, and that property could not now be bought for $100,000.

VERNON.

(From the News.)

It has been resolved by the farmers of Spallumcheen and Okanagan in view of the low price of wheat to organize a joint stock company to establish a flouring mill.

John McKinnon, accused of cattle stealing, has been committed for trial.

Some very respectable bags were made at the opening of the shooting season, though grouse and prairie chicken are hardly as easy to get in the immediate vicinity of the city as was formerly the case.

Mr. A. L. Fortune, of Enderby, has no reason to complain of his wheat crop this year. One field of fall wheat containing 80 acres averaged a little over 60 bushels to the acre—not a bad yield even for this favored valley. He has finished threshing and has hauled all his wheat to the Enderby mill, having disposed of it to that company.

H. T. Ceperley, of Vancouver, was in town on Monday on his way back to the Coast from Kootenay. He saw Vernon for the first time on this occasion and was very much impressed with the substantial and permanent appearance of the business houses and residences in the city.

Messrs. C. E. Costerton and L. Simmons have staked off two claims on a new mineral discovery near the B. X. ranch. The rock appears to be free milling gold quartz of promising quality, and is also thought to contain copper and silver. A sufficient amount of work will at once be done to obtain an idea as to the value of the discovery, and assays will also be obtained of the ore. The claims are named respectively the White Elephant and Bon Diable.

WINNIPEG WIRINGS.

Suicide Near Lundyville—Run Over at Rat Portage—Red River Navigation Improvements.

WINNIPEG, Sept. 6.—Harry Carrier, a young man residing near Lundyville, Man., committed suicide by putting a bullet in his heart. He had just returned from a drive with a young lady and is supposed to have been disappointed in love.

At Rat Portage this morning the body of John Garvey, an old resident of the town, was found in a frightfully mangled condition on the C.P.R. rails, having been killed by a passing train as he was returning home.

A telegram was yesterday forwarded to Premier Bowell by joint committees of the board of trade and city council, asking for an interview on the subject of Red river navigation improvements.

PHYSICIAN.

WHEN ALL OTHERS FAIL CONSULT

Doctor Sweany

RECOGNIZED BY THE MEDICAL FRATERNITY AS THE

LEADING AND MOST SUCCESSFUL SPECIALIST IN THE UNITED STATES.

THE friend and benefactor of suffering humanity, who for a number of years has had permanent offices at Seattle, where the sick and afflicted can receive treatment in the future, as they have in the past, from this noted philanthropist, whose fame is being spread from the Pacific to the Atlantic coast.

All are Invited and no Suffering Human Being will be Turned Away.

THE POOR

who call at his offices Fridays are welcome to his treatment free of charge.

What is the Reason of Dr. Sweany's Success, and Why do Sick People of Every Station in Life Crowd His Office Daily?

BECAUSE

First of all he has succeeded in effecting a cure of diseases before which all others stood powerless; and second, he is not only a doctor, but a Christian and a Philanthropist. His fame has preceded him, and the honors he received at the leading Eastern hospitals, as well as in Europe, were the highest ever bestowed upon anybody. To-day his treatment is unsurpassed by any, and he has testimonials to that effect from men of the highest standing in life, as well as from those of a lower station. It is a part of judgment and sense to seek Doctor Sweany first, instead of squandering time and money upon the uncertainties of patent medicines and picayune specialists.

All Private Diseases of Men and Women Positively Cured in the Shortest Possible Time.

YOUNG, MIDDLE-AGED AND OLD MEN

If you are victims of youthful indiscretions and unnatural losses, if you are on the road to idiocy, insanity and the grave, if gloom and melancholy, morbid fear and unnatural lust prevade your mind, if you are despondent and down-hearted, if you have lost all energy and ambition, if you have an aversion to society, if your memory is failing and you are unfit for business or study, you should consult Dr. Sweany before it is too late. Get well and be a man.

DISEASES OF WOMEN.

If you are suffering from any of the diseases peculiar to your sex, you should call or write to Dr. Sweany, and he will tell you just what can be done for you. He has succeeded in building up the most shattered and broken-down constitutions, and will bring back to you that health, strength and beauty which every woman should possess.

You Can be Cured at Home.

There are thousands cured at home by correspondence. Write if you cannot come personally. The strictest secrecy is observed, so cast aside all feelings of shame to consult the Doctor. He is conversant in all modern languages.

Method of Treatment.

No poisonous or injurious mineral drugs used, but the medicines are all compounded from the very choicest, purest and most effective medicinal plants, roots and herbs in the whole range of nature, and while their effects are marked and immediately apparent, they do not build up temporarily, but effect permanent as well as perfect cures.

Office hours 9 to 12 a.m., 2 to 5 and 7 to 8 p.m. Address—

LEVERETT SWEANY, M.D.,
Union Block, 713 Front St.,

NOTICES.

[L.S.] E. DEWDNEY.

VICTORIA, by the Grace of God, of the United Kingdom of Great Britain and Ireland, QUEEN, Defender of the Faith, &c., &c., &c.

To the Returning Officer of the Cowichan-Alberni Electoral District:

WHEREAS, a vacancy has happened in the Legislative Assembly, of the Province of British Columbia by reason of a certain election held on the 18th day of April, 1895, for the election of one member to serve in the said Legislative Assembly for the Cowichan-Alberni Electoral District having been declared void by the certificate of a Judge of the Supreme Court after the trial of an election petition before him, under the provisions of the "Provincial Controverted Elections Act." We command you that, notice of the time and place of Election being duly given, you do cause Election to be made according to law, of one member to serve in the Legislative Assembly of the Province of British Columbia, for the Cowichan-Alberni Electoral District, and that you do cause the nomination o Candidates at such Election to be held on the ....day of....next, and do cause the name of such Member when so elected, whether he be present or absent, to be certified to Our Supreme Court, at the City of Victoria, on or before the 31st day of October, next, the election so made, distinctly and openly under Our Seal duly endorsed upon this Our Writ.

IN TESTIMONY whereof We have caused these Our Letters to be made Patent under the Great Seal of Our said Province of British Columbia. WITNESS: The Honourable Edgar Dewdney, at Our Government House, at Victoria, the twenty-eighth day of August, in the Year of Our Lord one thousand eight hundred and ninety-five.

By command.
ARTHUR KEAST,
Deputy Registrar of the Supreme Court.

Victoria, B.C., Aug. 28, 1895.

TO VISIT KOOTENAY.

Party of B. C. Board of Trade Members Leave To Morrow for the Interior.

All the Principal Mining Camps and Towns Included in the Itinerary.

To morrow morning the party composed of members of the B.C. Board of Trade, who are going to see for themselves the trade prospects of the great mining country of West Kootenay, leave by the Charmer The party consist of the president, D. R Ker, of the Brackman & Ker Milling Co.; the vice-president. G. Leiser, of Leiz & Leizer; Col. Prior, M.P., of E. G. Prior & Co.; ex-President A. C. Flumerfelt, managing director of Ames Holden & Co; J. Piercy, of Piercy & Co; E. B. Marvin, of Marvin & Tilton; J. R. Ker, secretary of R. P. Rithet & Co; G. A. Kirk, of Turner, Beeton & Co; B. W. Pearse; J. Weiler, of Weiler Bros; M. Robertson; H G. Wilson, of Wilson Bros., R. Cassidy, and F. Elworthy, secretary of the board.

The following from the Kaslo Claim shows what interest is taken in the approaching visit:

Kaslo is going to have visitors—guests of importance—and in connection with these guests and their approaching visit Kaslo has a duty to perform. It is a duty not alone because great good may come of its performance, but for another reason—because it is a common courtesy due one city to another.

The board of trade of the city of Victoria is coming to visit Kaslo and the Kootenay, and we must receive and treat them with our warmest welcome and our most generous hospitality. While we may not be in Victoria's class, we can give them the best we have in the shop and show them that Kaslo is the biggest little city on the continent.

But sentiment is not all. These men are, of course, coming here for a purpose. All are business men and among them are some of the best known figures in the world of trade on the Pacific coast. They are wide-awake men of business brains, and they are much interested in our country. They see the trade of this great country—they recognize its greatness by coming here—diverted from the channel they would like to see it take, Victoriawards, and they are coming here to ask and to ascertain the reason.

They will find many reasons. They want the trade of this city and country. To get it they will have to compete with the States in prices, but that should be easy, since they are on the sea, there are no duties. They will be compelled to overcome the matter of quick transportation from Spokane and other points in the States, which is, perhaps, the most important question. Heretofore, and now, the business man who bought at ninety days, would often be compelled to pay his draft long before the goods arrived, and long before he had an opportunity to turn them. Then the distance is great, the risk increased, and credit correspondingly hard to get.

It is to talk over with us all these matters with a view to finding the remedy that this party of gentlemen are coming. What are their plans, if they have any at this time, we know not. They may build some railroad; or they may establish warehouses and wholesale stores. Whatever they have to offer, we may find it to our advantage to consider.

Then it must be remembered that Kaslo has some wants as well. We want a water system. Many of these men have money to invest. We want a chartered bank. The recommendation of any one of several of these gentlemen would, added to our efforts, bring the coveted institution. We want a better mail service. Many of these gentlemen stand high with the powers that be. We want a big smelter. They have and represent capital.

Whether we do business with them or not our Victoria visitors are good people to know.

BRITISH COLUMBIANS ABROAD.

Mr. J. B. McKilligan Tells of His Recent Trip—Provincial Prospects Bright.

Mr. J. B. McKilligan arrived from England on Thursday evening whither he had been on a business trip in connection with the Victoria Electric Railway and Lighting Co. He cannot at present give any information about tramway business until he has laid the result of his mission before the directors of the company. He had a pleasant trip, and saw many British Columbians in London at the Hotel Metropole, where he was a guest. He saw Hon. Premier Turner, who was just recovering from a rather severe illness, and then expected to return to Victoria in a few weeks. Mr. Turner spoke hopefully of the future of the province and seemed quite satisfied with his visit to London. Mr. McKilligan also met H. D Helmcken M.P.P., Frank Barnard M P., Dr. Powell, and others. He also saw Col. Kane, who appeared quite cheerful and confident in connection with railway matters and expected soon to pay Victoria a visit.

Mr. McKilligan called several times at the office of the Agent-General and found that Hon. Mr. Vernon was doing very good work in making the resources of the province known, especially amongst the monied classes. The new offices of the Agent-General are at 39 Victoria street, close to all the other colonial offices and quite convenient of access to all parts of the city. Hon. Mr. Vernon is kept quite busy every day answering inquiries and has distributed, through means of advertising agencies, a large number of the handbooks, "Resources of B C." and other printed matter, and these are also called for by numerous inquirers every week. A great interest is being taken in the mining resources of the province, and recently two firms have, through Hon. Mr. Vernon's exertions, agreed to send out their agents to examine mining properties; besides these, several gentlemen with capital behind them are coming out to secure mining claims.

The leading mining journals are beginning to take an interest in British Columbia, and although it is up hill work, Hon. Mr. Vernon is confident that a good deal of capital will be sent out from England to develop mining and other properties. The offices of the Agent-General have all the recent maps of the province and provincial newspapers and books of reference, and every facility is given to callers to get reliable information, while the Agent-General is at his post daily and is evidently in earnest to make his office of the greatest use to the province.

"And no doubt," says Mr. McKilligan, "his special knowledge of what is needed here and his intimate acquaintance with all parts of the country are helping greatly to interest capitalists to come and see for themselves what this country has to offer. Mr. Barton, the assistant in the office, is always affable and willing to give information."

During Mr. McKilligan's stay in England he heard of several large amounts that had been secured for the development of the province—but until some good paying mines have been quoted on the market he believes there will be no great rush of capital to British Columbia. Everything points to an early realization of this important step, and the sooner some really good results of a paying mine are placed before the London market the better. Since the recent sweeping victory of the Conservative party in England there is a very marked return of confidence amongst investors, and prosperous times are expected.

TRADE REVIEWED.

Decided Increase Over the Trade of Last Year—Prices Average Lower.

Failures for the Week—Bank Clearings in the Dominion of Canada.

NEW YORK, Sept. 6.—R. G. Dun & Co.'s review says: There is no real cessation in business. The gains which were recognized as temporary are vanishing; but there remains a decided increase over last year at this date, although prices average 8 8 per cent. lower than a year ago. It needs no keen observer to see that the reaction against the rapid advance of prices is strong. Hides were first to rise, but a decided break has come; coke was suddenly raised to $1 40, but has recently sold at $1.10; wheat jumped over twenty cents to 84 cents, but is now slow of sale at about 65 cents; wool has lost about an eighth of a cent in the average price within the past four night. Iron still rises, the miners strike having hindered shipments; cotton is strong but has paused. The general tendency to curtail purchases where prices have not advanced grows clearer in boots and shoes, in wool and some products of iron. The combinations have again advanced the prices of bar iron $2 per ton and of wire nails 20 cents per keg, while Bessemer is quoted at $17 40 at Pittsburg, and Eastern manufacturers from imported ore have again commenced to supply Western customers. Copper and tin are also weaker with large supplies. In the boot and shoe industry many shops are discharging hands, and in woollen manufacturers' work are closing for want of orders. The sales of wool, which averaged over ten million pounds per week when great speculation stocks were being taken, have shrunk to 5,380,500 for the week against 7,570,300 for the same week in 1893. The brightest feature in all the horizon is the certainty that the crop of corn will be enormous. Frosts can only affect a small fraction and the surplus will go into the manufacture of meats. The latest reports of wheat threshing indicate the best Western judges to raise their estimates of the yield over 40,000,000. With 450,000,000 bushels added to 75,000,000 bushels brought over, the supply will exceed all probable demands. The price has again dropped about three cents. Pacific shipments continue large. Cotton rose from 8.19 cents for spot last week to 8.25 on Tuesday, but has since been weak. The failures for the week have been 186 in the United States against 219 last year, and in Canada 38 against 47 last year.

Bradstreet's reports the total bank clearings for the Dominion of Canada: Montreal, $9,476,662; increase, 12 per cent. Toronto, $7,028 092; increase, 27 per cent. Halifax, $940,194; decrease, 3 9 Winnipeg, $798,483; increase, 13 7. Hamilton, $542,374; decrease, 19. Totals, $16,785,805; increase, 13 5.

TRADES UNION CONGRESS.

Solidarity of Feeling Among the Members From All Countries.

CARDIFF, Sept. 6.—Samuel Gompers and P. J. McGuire, who represented the United States in the Trades Union Congress, were given a hearty reception at yesterday afternoon's session. President Jennings in welcoming the American delegates, said that although geographically divided, the workers of America, Great Britain and Ireland are united on all important questions pointing to the elevation of their class. Mr. Gompers, replying to the address of President Jenkins, spoke of the solidarity of feeling and sympathy that existed among the trades unions of the countries represented in this congress. He said they were of one blood and had a common heritage. He looked forward to the day when all workers speaking the English language would unite with the workers of all countries struggling onward to the attainment of that end for which the whole past had been a perpetual endeavor, with an intensity of purpose that would insure the accomplishment of great results. Gompers said he believed the British trades union congress and the American Federation of Labor would compare favorably with the British parliament or the American congress.

A Cure For Deafness.

There have been many remarkable cures of deafness made by the use of Hagyard's Yellow Oil, the great household remedy for pain, inflammation and soreness. Yellow Oil cures Rheumatism, Sore Throat and Croup, and is useful internally and externally for all pains nd injuries.

The Cure For Diarrhoea.

DEAR SIRS,—I was suffering very much from Diarrhoea and could get nothing to cure me A friend told me of Dr. Fowler's Extract of Wild Strawberry, and a few doses completely cured me.

ESTABLISHED 1879.

Real Estate Agent, Conveyancer and Notary Public

Loans Effected, Rents and Income Collected, Deeds Prepared, Etc., Etc.

FOR SALE--20,000 ACRES FARMING LAND

In contiguous Blocks; Beautifully watered; forming one of the finest estates in the Province; house and farm buildings, 2000 cattle; 50 to 80 horses; easy approach; good roads; railways projected to property and the estate is in close proximity to some of the best developed, most promising gold mines in the District. The price of the whole is extremely moderate. Principals only treated with.

FOR SALE---1388-ACRE FARM

About 1000 Acres of which is Ploughable Prairie of First-class Quality.

120 Head Cattle 1 pedigree Hereford Bull.
12 Horses.
Ploughs, Harrows, Reaper, Wagon, Sleds and usual Farm Implements.
Double Harness, Chain Harness, Bull Chains, Saddles (ladies and gent's), Bridles, etc.
Blacksmiths' Bellows, Anvil and Tools and Carpenters' Tools.
9-Room House (shingle roofed; Stable for 10 horses, with hay loft above; Stone Roothouse, Store Buildings, Dairy, Cow Sheds, etc., etc.
7 Miles (about) Standing Fences, in good order; Corralls, &c.
Small Lot Household Furniture, Stove and Pipes, Cooking Utensils, Crockery, etc., etc.

This Property is within easy distance of many of the most important Gold, Silver and Coal Mines in West Kootenay. The soil is the best bottom land, and the locality is one of the few places in the Province where so large a piece of good farm land can be found in one block. A river runs through the property, and rainbow trout are plentiful and afford capital sport. Deer abound in considerable numbers. Bear, Wolf, Coyote and other large game are to be found in the hills. There are two creeks recorded and belonging to the estate, one flows all the year round. Limestone and brick clay are to be had in the valley.

The Cattle are well bred; a much larger herd could be farmed with the place. The bunch grass on the hills in the vicinity covers many thousands of acres, and is available to the few land owners in the valleys.

The Climate is not severe, the station was for many years the winter quarters of the H. B. Co.'s pack trains.

The Title is Crown Grant. Immediate possession can be given.

The South West Kootenay and Osoyoos Divisions of Yale District, British Columbia, judging from the actual ore products of the mines to date, are destined in the next year or two to be the richest and most important mineral centres in the world.

These localities are rapidly settling up and as farm land is limited great inducement is offered to any person or corporation having capital and knowledge necessary to develop and work these estates. A store, hotel and blacksmith shop could be run in connection with the farm.

MARVELOUS LINIMENT AND MIXTURE Cures Rheumatism

—AND ALL KINDS OF—

SPRAINS, PAINS AND ACHES.

READ A FEW TESTIMONIALS.

Dean & Cryderman,
Victoria, British Columbia,

GENTLEMEN,—Was troubled with rheumatism so bad I could hardly walk, and was cured by using your Marvelous Rheumatic Cure.
A. McNEILL,
New York Hotel.

Dean & Cryderman,
Victoria, British Columbia,

DEAR SIRS,—Had a bad sprained ankle, used Marvelous Liniment and was entirely cured in three days.
GEORGE SCHMIDT,
Steitz Restaurant.

Victoria, B.C., Jan. 17, 1893.
To Dean & Cryderman, druggists,

GENTLEMEN,—With much pleasure I add my testimony to your valuable Marvelous Rheumatic Cure. For three months I suffered terrible pain. Could not move only by the aid of two sticks. I have only taken two bottles of the medicine and two of the Liniment, and I can now go without sticks, and hope after the third bottle to go to work.
Yours very thankfully,
S. NORMAN,
48 Oswego street, corner Michigan street.

Births, Marriages and Deaths, $1.00; funeral notices, 50 cents extra.

Where cuts are inserted they must be ALL METAL—not mounted on Wood.

SOUND DOCTRINE.

The contract of the syndicate which has undertaken to supply the United States Government with gold whenever and as often as the reserve gets below the safety line terminates on the 1st of October. The Government will then be placed strictly on its own resources to find gold with which to redeem its paper. This fact, as Harper's Weekly pertinently observes, reawakens discussion on the currency issue. That paper, in a clear and well reasoned article, shows that until the United States Government withdraws from banking the business of the country will not be on a firm foundation and the confidence of the people in the soundness of the currency system will not be completely restored. It says:

In the transactions off the government with the syndicate, and of the syndicate with investors and speculators, the essential weakness of the government as a banker has been so fully demonstrated that nothing but wilful ignorance or inherent folly can now deny that the Treasury ought to go out of the banking business. The situation, as illustrated by the syndicate contract and operations, is this: The government, having a large amount of outstanding paper and an insufficient revenue in gold, was compelled to protect the reserve which tradition and practice had declared to be essential to the maintenance of the credit of the paper. It had no power to do this. It could not demand that its debtors should pay it in gold coin. It could not sell exchange at such prices as would make the exportation of gold unprofitable, nor could it increase the rate of interest in order to tempt foreigners to lend their gold in the United States. It could not even persuade the banks that owe their existence to it to part with their own gold in order that the Treasury might be replenished through the payment of customs duties in gold. In a word, it had bankers' obligations, but not bankers' powers or facilities. Therefore it felt itself compelled to employ a syndicate of powerful bankers to work for it, and in order to accomplish this object Secretary Carlisle felt obliged to pay a high price for the services of the bankers. There is a good deal of loose talking as to the wrong done to the country by those who placed the Treasury in the power of this rich syndicate. The only body that is responsible for the folly of it is Congress.

So long as there is Government paper in circulation for which gold may be instantly demanded, so long will the prosperity of the country and the solvency of the Treasury be threatened. It is said that the fundamental cause of the Treasury's difficulties is lack of revenue. It is true that the revenues of the Government have recently been smaller than its expenditures, but there has never been a time when the then existing deficiency might not have been met from the Treasury cash, counting the reserve on hand as part of the cash. Moreover, there are signs that the revenues will soon be sufficient to enable the Treasury to meet all its current demands. Even if it were true that the main difficulty lay in the lack of revenue, it is also true that the difficulty has been increased and the situation made more embarrassing by the existence of the means whereby the Treasury has been depleted of gold. If there were no greenbacks and Treasury notes, there would be no need of a gold reserve, and the lack of revenues might have been easily met from the surplus in the Treasury. In that event there would have been no attack upon the Government's credit, no alarm leading to a panic, and no increase of the public debt and of the Government's interest charge. Therefore the full duty of Congress is to get rid of the Government paper, and to establish a banking system which shall be entirely independent of the Government, and which, at all events, shall not be in a position to worry and embarrass the Treasury by insisting on the strict performance of all its obligations, while declining any aid not demanded by the strict letter of the law.

With such sound teaching as this it is a little difficult to understand how it is that so many people in the United States are ready to embrace the wild and fantastic financial doctrines preached by currency enthusiasts and theorists of one kind and another. Harper's Weekly points out the road to financial soundness and business stability, and it is to be hoped that a very large proportion of the electors will accept the guidance of men who hold the doctrines which it teaches. It is a reproach to the intelligence of the people of the United States that their Government should ever be in want of ready money to meet its obligations. The country is rich, and the Government of a rich country has no business to be poor.

THE LAW DISREGARDED.

Aldermen Macmillan and Cameron in letting a contract of over one thousand dollars to an importer of foreign sewer pipe acted in direct contravention of both the city by-law and the Municipal Act of 1892. The law is so clear and so explicit that there can be no possible excuse for violating it. The following is subsection (c) of section 20 of the "By-law to regulate the proceedings in the Municipal Council of the City of Victoria and in the committees thereof":

The Mayor shall have power to appoint such members of the Council as he may deem proper to be standing committees for any purposes which he considers would be better regulated and managed by means of such committees.

But the proceedings of all such Committees shall be subject to the approval of the Council, and no debt may be contracted or money expended by the authority of or at the direction of any such Committee in excess of fifty dollars at a time, unless first sanctioned by the Council in a manner provided by the statute, or by-law or resolution of the Council.

Subsection (c) of Section 21 of the Municipal Act, 1892, is identical with the above subsection of the city by-law.

It is to be hoped that after this Committees of the City Council will keep the above provision, both of the Municipal Act, 1892, and the city by-laws, in mind; and it is also to be hoped that the City Council will keep a sharp lookout as to how the people's money is expended and require the standing committees to consult them, as the law directs, respecting all expenditures over fifty dollars. It is hard to understand how this provision of the law could have been lost sight of for a single moment by the City Council as a whole or the members of Committees.

THE TRUE RECORD.

The following statement from the Moncton Times shows in a striking manner the true significance of the victory won in Westmoreland by Mr. Powell. When the Conservatives came into power the Liberals had in the county a majority of over six hundred. That majority soon became a minority, and to-day the Conservative majority is greater then the Liberal majority was in 1878. The Grit who studies the following statement until he fully understands what it means, will not, we think, feel like claiming for his party a "moral victory" in August, 1895:

LIBERAL WINS.	
1887 Ind. Liberal majority	1,546
1872 Ind. Liberal by acclamation	
1874 Liberal by acclamation	
1878 Liberal majority	644
CONSERVATIVE WINS.	
1882 Conservative majority	432
1887 Conservative majority	542
1891 Conservative majority	2,148
1895 Conservative majority about	800

THE GREAT YACHT RACE.

The race between the Defender and Valkyrie III comes off to-day, wind and weather permitting. Judging by all that has been written about this race, both in Europe and America, it is only natural to conclude that a very considerable proportion of the population of both continents take a lively interest in the race. The rivalry is, however, supposed to be between Great Britain and the United States, the Valkyrie representing the British and the Defender the Americans. But to an outsider who knows little or nothing about the technicalities of ship building and yachting it is hard to see in what the rivalry consists. It is not between a yacht essentially British and one peculiarly American. As far as we can learn there is nothing national in either of the racing sloops. They are two very expensive toys built especially for racing purposes, and there is nothing like them to be found in the working craft of either Great Britain or the United States. The contest is not between crews of the different nationalities, for we find that although the crew of the Valkyrie may be altogether British, the crew of the Defender, like the crews of most American vessels, is made up of men of different nations. It seems to us that whichever vessel wins the nation to which its owner or owners belong will have very little cause to boast.

The Valkyrie is more like an old fashioned British vessel, as far as the material of which she is constructed is concerned, than the Defender is like an old fashioned American sloop. The Valkyrie is a composite vessel with steel frames and a wood sheathing. She is strong and serviceable, and is likely to keep in good condition if taken proper care of for a long time.

The Defender, as far as the material of which she is made goes, is like nothing afloat. She is a metal boat. In the construction of her underwater body 5-16 manganese bronze platine and brass castings on steel frames were used. The top-sides and deck frames are of aluminum—the metal of the future. In using this metal her constructor hoped to secure the greatest possible degree of strength with the lowest possible weight. The drawback to the use of aluminum is that it does not stand the sea water. Owing to the materials of which she is constructed the Defender is much the more costly vessel of the two.

A peculiarity of both these racing sloops is that their draft is, considering their size, very great indeed. The Defender draws nearly twenty feet of water, and the Valkyrie III about nineteen. This, the initiated assert, shows that in the construction of the vessels everything has been sacrificed to speed. The vessels are racers, and nothing else. They have been very properly called gigantic toys, "for what other term," says "Retaw" in the Montreal Witness, "can be applied to vessels that require over twenty feet of water to float them, and have to be escorted by a steam tender whenever they go off an outside racing course; boats of ninety feet on the load water line that cannot berth their own crews, and cost fabulous sums." As far as we can see, the race to-day will prove nothing and decide nothing that can be of the least possible use to either Great Britain or the United States.

REPUBLICAN TYRANNY.

Republicanism and liberty in South and Central America are not synonymous. They are in fact often the very opposite. Republicanism there frequently means tyranny, and tyranny of a grinding and brutal kind. This is what took place in the Republic of Honduras not long ago. That Republic was, as republics sometimes are, hard up. The President wanted to raise the wind very badly. But his credit, or rather the credit of his Government, was at a very low ebb. He and his colleagues in the Government were just a little too well known by the mon eyed men of the country. But money he must have. A rich farmer in the country was approached. An attempt to negotiate a loan with him of $100,000 was made. But the farmer, Mr. Maximo Sanchez, would not listen to the Government's agent. He had no money to lend the Government of Honduras. When it was found that Mr. Sanchez was not squeezable he was haled for his closefistedness before some tribunal, found guilty of an offence—goodness knows what—and condemned to sweep the streets wearing a ball and chain, and to pay a fine of $1,000 a day until he hands over the amount demanded by the needy Government. This is republicanism in Honduras. The country has been in name a republic for sixty years, but it has been ruled by different gangs of unscrupulous politicians who did pretty much as they liked. When one gang was driven from power by another gang equally unscrupulous the people experienced no change. They were not, in fact, fit for self-government, and were, therefore, an easy prey to schemers and extortioners.

AUCTION SALES.

Sept. 10—Furniture, etc. H. Cuthbert & Co.
Sept. 10—Furniture, etc. Joshua Davies.

Although the salerooms of Messrs. H. Cuthbert & Co. are well filled with furniture it does not by any means represent the extent of the sale of Tuesday. Most of the modern furnishings will not be in place before Monday afternoon or Tuesday morning, and it will be scarcely possible to have any idea of the full amount to be sold until the sale commences.

THE CITY.

A GENERAL meeting of the directors of the Jubilee hospital is called for next Monday evening.

THE Harvest Festival service at Cedar Hill will be held on Thursday next instead of to-night as previously announced.

MR WM. MARCHANT delivered an interesting address on "Hints for the Public Speaker," before the Sir William Wallace Society last evening.

CHARLES RAINHART, who feloniously helped himself to a silver ring from Mrs. Babchuck's stock and was apprehended in the act, was yesterday sentenced to two months' imprisonment at hard labor for the theft.

THE ladies of the Jubilee Hospital auxiliary committee wish to publicly thank the B.C.G.B.A. band for their delightful concert of Wednesday last. The ladies look upon it as a donation of $40 from the band to their hospital fund.

THE honorary treasurer of the British Columbia Protestant Orphans' Home thankfully acknowledges the receipt of $32 from the Ladies' Aid Society of the Metropolitan Methodist church, the proceeds of the recent garden party at the residence of Mrs. John Teague.

THE best attended anniversary services ever held in the Centennial Methodist church will doubtless be those to-morrow morning, afternoon and evening. Preparations for the anniversary tea in the church are progressing favorably and this event also promises to eclipse those held in other years.

THE weekly social and entertainment of the pupils of South Park school was given yesterday afternoon, when after the programme had been concluded and the prizes presented to the successful ones, Mrs. Trustee Grant addressed those present, congratulating parents, teachers and pupils upon the success attained.

THE complimentary entertainment tendered by the Juvenile Opera Co. to Mrs. E. Lang turned out very successfully last night. The concert, which was under the management of Mr. E A. Wolff, attracted a large audience, and was very enjoyable. The programme, which was well rendered, was as published yesterday, and dancing closed the evening's entertainment.

THE steamer Mary Hare, which runs in connection with the Victoria & Sidney railway, came in from Ganges Harbor yesterday. To-day she leaves for Kuper island to carry an excursion given by the Indian school to Salt Spring island; and a week from to-morrow she brings a bridal party from the latter place to Victoria. The principals are to make a short stay here and are afterwards to leave by steamer for San Francisco.

CORPORAL OTIS, of the Northwest Mounted Police, is expected to arrive from Kamloops this evening to take back to Calgary Christopher Moody, who is charged with larceny in the prairie city. If Moody's explanation of the circumstances be true he will in all probability be leniently dealt with; in any event the case is a most distressing one, as since his incarceration his wife and five little ones have been left utterly destitute—strangers in a strange city, with no one to provide the barest necessaries of life for their support.

THE excellent band of H.M.S. Royal Arthur, under the leadership of Mr. W. F. McKay, will play the following programme at this evening's promenade concert at the Mount Baker hotel, Oak Bay beach: March, "Midnight," (Morelli); valse, "Donan Wellen," (Ivanvoici); an Oriental scene, "A Dervish chorus," (Sebek); grand selection on national melodies, (Godfrey); valse, "Brise des Nuits," (Lamothe); fantasia, "To the West," (Russell); concert polka, "Irene," (Bidgood); and characteristic, "The Mill in the Forest," (Eilenberg), by request.

ON Monday last Mrs. Edwin McNaughton and Mrs. Spofford opened their new school for children from 3 to 8 years of age, both boys and girls. Mrs. E. McNaughton has studied Froebel's kindergarten system of instruction, which enables her to conduct the kindergarten class; while Mrs. Spofford's well known ability is a guarantee that the primary class will be successful. A building has been erected for the school on the corner of Fernwood road and Yates street, and nice airy rooms provided with suitable furniture and efficient teaching, should ensure plenty of support from parents having young children.

THE monthly freight and shipping report for the month of August, prepared by R. P. Rithet & Co., Ltd., says: "Since the last issue of our circular there has been a marked change in the market, and freights are down all round, rates for grain carriers on the spot having dropped fully 7s. per ton within the month. Although lumber freights have not shared to anything like the same extent, in that market also the position is unfavorable and the tone dull and weak. The only feature deserving special notice is the continuous development of the lumber trade with South Africa, a trade that appears to be fairly divided between steamers and sailing vessels. In the coal trade, too, steam is gradually taking the place of sail, one result of which will no doubt be to add to the lumber fleet most of the vessels supplanted."

TO-DAY the tailor and gentlemen's furnishing store of George R. Jackson & Co., No. 57 Government street, will be re-opened. A very attractive lot of goods have been placed in the windows and with established rates of cheapness, a fine line of stock and an enviable reputation for keeping and making thoroughly up-to-date clothes, there is little doubt that crowds will be drawn to the store.

DR JOSEF OLESKOW, a professor of Lemberg University, in northeastern Austria, is at the Driard, accompanied by Mr. H. E. Carsons, of the Dominion land intelligence office. Prof. Oleskow is visiting this province for the purpose of finding out its advantages for settlers, with a view to turning to British Columbia the stream of Austrian emigration, which is now flowing to Brazil. He will interview the provincial government upon the subject.

HON. D. W. HIGGINS returned yesterday from a visit to the Alberni gold fields. He is highly impressed with the wonderful showing already made, and states that there is an ever-increasing number of men going into the district to prospect. He and a party were out on their own account and made several very promising finds, the exact location of which they prefer to keep to themselves for the present till the results of the assays are ascertained. New finds are being made every day by prospectors, but there is a big scope of country yet untouched. Mr. Higgins expressed the opinion that on the north side of the Alberni canal there will be as fine gold discoveries made as on the south side. Mr. Higgins visited Mineral and China creeks and found mining operations going ahead there at a lively rate.

THE Victoria theatre will be occupied to-night by a new farcial comedy which comes direct from New York, where it has been playing nearly a year, with the New York cast. It is "Too Much Johnson," an adaptation by William Gillette of a French play called "Le Plantation, Thomassin." Mr. Gillette will play the part of a metropolitan liar with a dash of the Don Juan about him. His role is that of Gus Billings, a married man with a home and a wife and mother-in law in Yonkers and an office in New York city. In some way or the other, which no married man will be able to find out, he has fallen into a flirtation with a pretty little French woman. Flirtations take time as well as ready money, and Billings has to lie a little at home to explain his frequent absence. In order to make his conscience feel secure he tells Mrs. Billings and her mother that he has purchased a plantation in Cuba which he must visit. Wife and mother-in-law swallow the plantation, that is, they believe the story, and off he is supposed to hie himself to Cuba. At the final moment Mrs. Billings and her mother decide to go with him, and just as the vessel is about to start they appear at the gangplank and he is compelled to go. Worst of all, the French woman's husband, who has learned of the flirtation, follows him on board and Billings' holiday begins. The first act is on shipboard. Billings owns no plantation and knows nothing whatever about a plantation, but when he reaches Cuba he borrows one. The first man he meets on the dock mistakes him for his intended father-in-law, and greets him as such. This man is Johnson, who owns an immense plantation. He is delighted to see Mrs. Billings also—Johnson is. He thinks Mrs. Billings is his fiancee. Billings tells his folks that Johnson is his overseer. Johnson is engaged to Miss Faddish and he has been expecting her and her father. The Faddish's do arrive later, but that does not disconcert Billings. He introduces them to Johnson as poor relations, and Johnson, drawing the line at poor relations, insists that they shall work for their keep, which Billings says is only fair.

Lieut.-Governor Patterson.

OWEN SOUND, Sept. 6.—Lieut.-Governor Patterson left here yesterday afternoon for Port Arthur, en route to Winnipeg.

Lord Rosebery to Visit Canada.

TORONTO, Sept. 6.—Speaking at a banquet in his honor last night, G. R. Parkin, principal of the Upper Canada college, announced that Lord Rosebery had intimated to his friends that he would pay another visit to Canada at at early date.

Toronto Waterworks Inquiry.

TORONTO, Sept. 6.—The city engineer is still suspicious of foul play in connection with the rising of the water conduit and an investigation is being made that will cover every foot of the disturbed portion.

For Cholera Morbus, Cholera Infantum, Cramps, Colic, Diarrhœa, Dysentery, and Summer Complaint, Dr. Fowler's Extract of Wild Strawberry is a prompt, safe and sure cure that has been a popular favorite for nearly 50 years.

Passengers for all points East in Canada and the United States should take advantage of the cheap rates and quick time made by the Canadian Pacific Railway. Passengers have the option of going via steamer from Fort William to Owen Sound or Fort William to Windsor. The express steamers Athabasca, Alberta and Manitoba comprise the finest lake fleet afloat. Meals and berths are included in the fares on the lake steamers. For steamer accommodation, tickets, etc., apply to Geo. L. Courtney, agent, corner Government and Fort streets, Victoria, B.C. x

THE PREVOST CASE.

Opening of the Preliminary Hearing of the Charges of Embezzlement.

The Ex Registrar Has Changed But Little—Falding's Return to Westminster.

By another of those curious coincidences that have marked their parallel cases, both Prevost and Falding were brought back to British Columbia yesterday, each having been away from the province an exact fortnight. The Victoria registrar was home, however, several hours before Falding reached the Royal City. As told briefly in the COLONIST of yesterday, he was arrested by Provincial Officer McKenna at the Hotel de Haro, Roche Harbor, on Wednesday afternoon, and deciding to waive the formality of extradition, announced that he was ready to return to Victoria at once. Soon after, Sergeant Langley arrived, having started for San Juan island with the police launch at about the same time that Mr McKenna left Port Townsend with the same objective point. The party left the island for Seattle by the first steamer calling, and from the Sound city came here by the Rosalie yesterday. The only incident of the trip was the coming on board at Port Townsend of Mr. Jennings, an enterprising lawyer and ex district attorney, who urged Prevost to leave the steamer while she was still in American territory and fight extradition to the bitter end—advice which, however, was not accepted.

Prevost was arraigned in the city police court at noon and the case against him formally initiated, two charges of larceny being preferred on the information of Mr. F. S. Hussey, superintendent of provincial police. The first alleged a theft from the province of $5 200, and the second an embezzlement of $1,500, in round numbers. Neither charge was entered into, the proceedings of the day terminating with an application for and consent to an adjournment, the date of the preliminary hearing being fixed for Tuesday next at 2 30 o'clock. As soon as the court proceedings were over the accused was returned to a cell at the city lock-up, from which he was during the afternoon transferred to the provincial jail.

He bears his disgrace with remarkable composure, and has apparently suffered neither mentally nor physically during his exile. When a member of the COLONIST staff called upon him yesterday he apologized casually for his surroundings, remarking with a little laugh:

"This isn't exactly the sort of place to receive visitors in, is it?"

He is looking quite himself, not having, according to report, shaved clean or otherwise altered his facial appearance. In fact he is looking better than when last seen about the law courts, for his face does not bear the marks of extreme anxiety and worry that it then did. Perhaps it is, as one old-time friend accounted for it yesterday, that the crash having come and the concealment and suspense terminated, the man who has been more talked about during recent weeks than any other in the province feels a load lifted from his mind.

He has not yet decided as to his course of action, but will probably have reached a conclusion by Monday, having in the meantime talked over his tangled affairs with his counsel, Mr. J. A. Aikman. At present he has little to add to the known story of his flight. In company with a waterfront acquaintance named Babington—not the pilot—he left here on the evening of the 23rd ult., sailing out in the darkness from Esquimalt, and after spending ten hours on the Straits, wet to the skin and their boat the plaything of a fierce blow, making a landing near Dungeness. Leaving that place on the Monday, as related by Mr. H. J. Lipsett, they spent several days on land and water alternately, until their boat was confiscated by the United States revenue patrol, for not having proper papers, and they were landed on San Juan island. There Prevost was made a prisoner, while Babington returned to Port Townsend to recover if possible his confiscated craft.

By the time that the case is called on Tuesday, material alterations will have been made in the charge, the informations being substituted. They, too, are laid by Superintendent Hussey under section 558 of the code, and read as follows:

"That James Charles Prevost on or about the 22nd day of December 1893, at the city of Victoria, in the county and province aforesaid, being then and there employed in the service of Her Majesty, and being then and there by virtue of his said employment in possession of certain moneys the property of Her Majesty to the amount of $3,154 49, did unlawfully steal the said moneys."

And "that James Charles Prevost on the 21st day of January 1895, at the city of Victoria, being then and there employed in the service of Her Majesty, and being then and there by virtue of his said employment in possession of certain moneys the property of Her Majesty, to the amount of $824, did unlawfully steal the said moneys."

The first of these, it will be noted, goes back to December, 1893, about the time it is believed that Prevost's maladministration of his office commenced. Other breaches of trust are said to have been committed all along to a few weeks ago, and these may be made the subjects of fresh charges. Still other are likely to arise in connection with the handling of trust funds, in regard to which Auditor Goepel has published the following:

"All parties interested in funds in the Supreme court at Victoria or in estates for which James Charles Prevost was acting as administrator or trustee, and in respect of which any balances may be due by him, are requested to supply full particulars, by letter, to W. J. Goepel, at the Supreme Court, Victoria."

Falding, according to Superintendent Hussey's information, was to have reached Westminster in charge of officer Bulloch Webster by the last train from the Mission last night.

Headaches, Dizzy

Spells and faintness have been my afflictions for 22 years. Often I would fall in a sudden faint and several times narrowly escaped being burnt on the stove. No medicine gave me more than a few days relief, and I laughed when a friend urged me to try Hood's Sarsaparilla. But I took it and in six months I was free from all headache trouble, faintness or dizziness. **I am now perfectly well.** I cannot say too much in praise of Hood's Sarsaparilla. It is worth its weight in gold to me. MRS. R. H. HANES, Paris, Ont.

ATROCITIES IN CUBA.

Spaniards Said to Have Been Guilty of Deeds as Revolting as Those of the Chinese.

NEW YORK, Sept. 6.—The Press says: "Atrocities committed by Spanish soldiers as revolting as those committed by the Chinese at Port Arthur, have been reported to the Cuban revolutionary party in New York. Enrique Trujillo, editor of El Polvenir, has received a letter from Juan Maspons Franco, chief of staff, under General Maximo Gomez, commander-in-chief of the insurgent army, which sends details of the capture and recapture of the city of Baire, and the massacre of thirty-seven inoffensive Cubans, mostly women and children, by the Spaniards, under Commander Garrido."

Description of the Big Columbia River Stern Wheeler the Steamer "Nakusp."

The "Bawnmore" Disaster—A Salmon Ship Damaged in a Gale —General Notes.

The Columbia and Kootenay Steam Navigation Co.'s steamer Nakusp, on which the members of the Victoria Board of Trade will travel on their tour through the great mining district of Kootenay, is at once a credit to the owners and designer, and shows the great advance in the means of transportation and travel in the interior of the province. Going on board the Nakusp the first impression is the abundant means of handling freight and the ample space for stowage. On her first trip, a week ago, she carried ten cars of freight, most of it bulky, three of them furniture, and on her return from the mining camps she carried nine cars of ore and bullion. The freight deck is 36 feet wide by 9 feet in height, extending the whole length of the vessel, except the space occupied by the machinery. The smoking room on the upper deck is 37 feet long by 18 feet wide, off which are the purcer's office, bar, and lavatory. The dining room is 50 feet long by 17 feet wide and 17 feet wide, with a gallery on two sides and a double stair of easy grade at the further or after end. This stair and its arrangements panelled in the beautiful cedar of the country is striking in its effect, showing how much thought and artistic training have been brought to the design of this splendid hall. The galleries on each side are not only beautiful in themselves but add to the charm of the whole. Off the dining-room are numerous staterooms, and the pantry arrangements have all the latest improvements for serving the food with dispatch and comfort. Off the galleries are staterooms which for elegance and everything that can conduce to rest of body and mind, cannot be surpassed. The dining tables are 5 feet square and six in number, set not in a row, but as in a first-class hotel. Their effect, when set and occupied as seen from the gallery, is very fine. Aft of the dining-room is the ladies cabin, 42 feet by 17 feet, a most elegant saloon—with every form of chair. Off the saloon are suites of staterooms arranged en fa mille. The roof is carried by a simple form of truss, leaving all the deck space clear. This steamer being fitted with a "Texas deck" one can go along the galleries on either side and is enabled to enjoy a splendid view of the country through which the steamer passes. Here are also most elegant and convenient staterooms for the captain and officers. The machinery of the Nakusp, which enables her to climb the rapid waters of the lower Columbia, which amounts at what are known as the Kootenay rapids, to 7 feet rise in 800 yards, and, in the whole distance from Robson, where the really rapid water begins, to Northport, a distance of a little over fifty miles to a rise of eighty-seven feet, consists of two engines each with cylinders twenty inches in diameter by six foot stroke. These drive the vessel at fifteen miles per house. The vessel is fitted throughout with electric lights, the whole being driven by a vertical engine of eleven horse power. The vessel is being fitted with steam heating by an improved form of radiator. The total dimensions of the Nakusp are: Length, 171 feet; beam, 33 5; depth, 6 3; admeasuring, 1,083 tons gross. The model of the vessel is flat amidships with very fine lines forward and good clearance aft, her draught of water being thirty inches mean. The lumber for the hull, of splendid straight grain, was furnished by the Brunette saw mills, New Westminster. For the deck houses and other parts by the saw mill company at Nakusp. The windows and doors were made by the Vancouver Sash & Door Company. All the fittings, furniture, etc., are of Canadian manufacture, having been purchased by J. A. Mara, M.P., director of the company, in Toronto and Montreal. The whole vessel was designed and the construction superintended by Captain J. W. Troup.

THE "BAWNMORE" A TOTAL WRECK.

Fire and not water completed the destruction of the tank steamer Bawnmore, says the San Francisco Call. Not a particle of her deck load started, and there was not a drop of water in the hold twelve hours after she went ashore, but when the waves beat her down to starboard the water rushed into the cabin and forecastle, and when the hatches came off the sea got into the tanks. In the after tank there was a large quantity of lime, and as soon as the water reached it the flames broke out. From tank to tank the flames spread, and soon the hull and iron decks were red hot. The street cars, lumber and boats were soon in flames, and although each succeeding sea that broke over the ship would put out the fire, it was only temporary. In a letter to a friend, Captain Woodside has this to say: "Between land sharks and sea sharks the Bawnmore has had a pretty bad time of it. The former swooped down from God knows where, and everything that floated ashore they carried away lawful prize. They stole our provisions, our clothes, and everything they could lay their hands on. In fact, I believe they would go out and steal the wreck if it were possible."

MARINE NOTES.

One of Robt. Ward & Co.'s chartered salmon vessels, the British ship Fiery Cross, from Cardiff, is reported to have put into Montevideo in distress, partly dismantled.

According to an exchange the China steamship Altmore was detained four days in sailing for the Orient last week through grounding in the Columbia river.

The little schooner Stranger, owned and commanded by a prospector and trapper named William Blank, cleared yesterday for Cape Scott.

The steamship City of Topeka, en route to Alaska, touched here yesterday morning and received light freight and a few passengers.

Having left Sydney, N.S W., on schedule time, the R M.S. Miowera will be due to arrive here on Tuesday next.

SEWER PIPE CONTRACT.

To THE EDITOR:—Will you permit me a few more words on this matter before it is shelved; not, I hope, without having taught us one or two useful lessons, as pointed out in your able leaders on the subject. But, sir, there have been statements made in this connection which I cannot altogether pass over in silence, being as they are prejudicial to this industry, and liable to mislead the general public, whose only means, perhaps, of forming an opinion on these matters is from what they read in the public press.

In the first place: With regard to the quality of pipe manufactured by the Pottery Co. there is no question but that this will stand comparison with any pipe imported into Victoria either from the United Kingdom or the United States. In fact, many of our well known contractors who are practical men and are familiar with other well known makes of pipe have frequently told me that they consider ours in many respects superior. Be that as it may, there are certain prescribed tests to which all pipe supplied to the city is subjected by the city engineer, and our pipe passes the test, which is all that need be said on that subject.

With regard to the material used, our pipe is made from specially selected fireclay imported from the mines at Wellington and not as appears to be the general impression from the local bed of clay. In fact, I can never understand how any practical man could have ever imagined he could make good sewer pipe from the local clay which is utterly unsuited for the purpose. It is nearly always a costly business to establish an industry of this nature from the fact that all clays in different localities require different treatment, which has to be found out generally by practical experiment. And the experience of the B. C. Pottery Company has proved no exception to this rule.

With regard to the prices charged to the city, these were originally fixed by open competition with outside manufacturers, so I do not see that anyone has any right to complain on that score. If I am correctly informed prices generally have dropped very considerably since we commenced manufacturing. I have heard of 6-inch pipe being charged at 40 cts. per foot, or more than double the present price of that size. It is, however, not a fact that the pottery company has never offered to reduce its prices. I have done so myself on certain lines on several occasions.

In reply to the allegation that we have difficulty in obtaining reliable workmen, and pay those we have poorly and seldom, I would state that the majority of the men working at the pottery have done so for a considerable time, some, I believe, since its commencement; and I have certainly no reason to consider any of them unreliable, neither do they, I believe, complain of the rate of wages offered and which is paid punctually every week.

In conclusion, I have to thank you on behalf of this company for the consideration you have shown and the assistance you have given to its cause through the columns of your valuable paper. I believe that every right-minded citizen of Victoria wishes to see its native industries fostered and encouraged. The experimental and expensive stage of this industry has now been passed, and the B C Pottery is in a position to manufacture and supply, of the best quality and on fair terms, every article required by the city or the public in its line of business.

Yours faithfully,
A. FOSTER BARHAM,
Manager B C. Pottery Works.
44 Government street, Sept. 5, 1895.

Hall Caine, the brilliant novelist, is a Manxman, in the prime of life, tall, but not robust, with pallid face, hazel eyes, dark chestnut hair and beard, and has a delicate, nervous organization which is readily upset. He is without affectation or mannerism and receives his friends and visitors with simplicity and genuine cordiality.

To make the hair grow a natural color, prevent baldness, and keep the scalp healthy, Hall's Hair Renewer was invented, and has proved itself successful.

A Commissioner in B.R.

GENTLEMEN,—Having used Hagyard's Pectoral Balsam in our family for years I have no hesitation in saying that it beats everything else we ever tried for coughs and colds in children as well as grown up people. It relieves that tight binding sensation in the chest. We would not be without it for anything, as we have a large family.

WILLIAM ANDREW,
Commissioner in B.R.,
Balmoral, Man.

Dr. Fowler's Extract of Wild Strawberry cures Diarrhœa, Dysentery, Cramps, Colic, Cholera Morbus, Cholera Infantum, and all looseness of the bowels. Never travel without it. Price 35c.

Chicago, Milwaukee & St. Paul Ry.

GLANCE AT THIS MAP

Of the Chicago, Milwaukee and St. Paul Railway and note its connections with all transcontinental lines at St. Paul and Omaha, and remember when going east that its trains are lighted with electricity and heated by steam. Its equipment is superb. Elegant Buffet, Library, Smoking, and Sleeping cars, with free reclining chairs. Each sleeping car berth has an electric reading lamp, and its dining cars are the best in the world. Some other lines are longer than this, but none are shorter, and no other offers the above luxurious accommodations. These are sufficient reasons for the popularity of "The Milwaukee." Coupon ticket agents in every railroad office will give you further information, or address

CHOY WAN'S GUARDIAN.

Mong Kow's Right to the Girl's Possession Confirmed by the Court.

Refuge Home Appeal Against the Order Dismissed by Chief Justice Davie.

Choy Wan, the little Chinese girl over whom the refuge home and Mong Kow have been disputing in the courts, was handed over to Mong Kow as her guardian yesterday. The appeal against the order constituting Mon Kow guardian was argued before the Chief Justice yesterday afternoon, Mr. Fell on behalf of the refuge home arguing that the child was really a slave to the Chinaman, while Mr. Aikman for the guardian denied that the girl had been bought, and held that there was simply an agreement between the mother and Mong Kow that Choy Wan should be taken care of by Mong Kow till she was sixteen years of age, and in return was working for him as a nurse girl.

Mr. Fell read two affidavits in support of his contention. The first was that of the girl herself. It stated that she was the youngest of a family of seven. She had no recollection of her father or mother, both her parents dying before she was four years old. Her uncle, who was a very poor man, sold her when she was five years old to some people at Fat San, near Canton. Then in the fifth month of last year she was sold by her owner to Yip Kow, who took her to Hongkong and thence brought her to Victoria, where she has since been a slave in Mong Kow's family. Her name had been Ah May in China, but Mong Kow had changed it to Choy Wan. She had gone to the refuge home of her own free will because Mong Kow's mother had beaten her.

The other affidavit was by Miss Sarah Bowes, matron of the Chinese refuge home, telling of the girl's going to the home and stating that she was there of her own free will and was free to leave whenever she wished. The refuge home was not a home simply for fallen women, but for all Chinese girls and women requiring aid. Of the seven inmates all but one had been rescued from slavery.

Mong Kow was put through a long examination as a witness. He gave practically the same story as has already been published of how he got the girl. He had made a simple arrangement with the widowed mother, who was very poor, to look after the girl till she was sixteen. He had formerly known the girl's father in China, thirteen years ago. As to a girl he had formerly had before Choy Wan came from China, he would not say whether he had bought her or had not bought her. He paid money to her father and when she was sixteen he got her a husband, the latter giving him $240 to buy the trousseau. He did not expect to get any money for Choy Wan if she was married when she was sixteen. He then detailed the story of his visit to the home and the refusal of the people there to allow him to take Choy Wan away.

Mr. Fell said that all slave girls in China were made to call their owners mother, so that the term was misapplied very often. Read between the lines the evidence of Mong Kow himself showed the girl had been bought as a slave. He cited the habeas corpus case of the girl Ah Guay in 1893 before Chief Justice Begbie. It was an almost similar case, and the court then refused to take the girl away from the home, deciding that it was not right to take her from one unauthorized custody where she wanted to remain, and hand her over to another unauthorized custody where she did not wish to remain. The ex parte proceeding by which Mong Kow was appointed guardian in the present case was a step to forestall one of the objections in the case he quoted.

Mr. Aikman argued that as the girl had been under the care of the home for the last few days, it was the influence there that made her wish to remain. It was a novelty to the child, and no doubt things had been made as pleasant as possible so as to induce her to remain there. As had been allowed in a former case, he asked that the girl be handed over to Mong Kow, her guardian, for a few days and then she could be brought before the court and asked whether she would prefer to stay with him, or go back to the home.

Chief Justice Davie wished to know if the child showed any signs of ill-treatment, physically, and if she was well clad and well nourished when she arrived at the home.

Mr. Fell said there was nothing to complain of in that respect as far as the girl's appearance showed.

The Chief Justice in deciding the case said that the facts showed that Mong Kow had adopted the child after she came from China. The Chinese were entitled to the same protection in their domestic relations as white people. Supposing a white child in China had run away from its proper guardian and gone to a refuge conducted by Chinese. What would white people say if some Chinese tribunal gave it over to the Chinese institution instead of delivering it to its white custodians? The proceeding would be denounced as an outrage. So in the present case, it would be a most monstrous thing that, because the child had got a whipping and had consequently run away to a refuge kept by white people, a British court should deny the Chinese custodian the possession of her. The refuge home was a most worthy institution, but it was better for the child to remain among people of her own nationality than to force her to be brought up by aliens to her people. The court confirmed the order constituting Mong Kow guardian of Choy Wan, and directing that she be produced before the court one week from date. At the request of Mr. Fell, his lordship promised to give a written judgment.

Why Not You?

When thousands of people are taking Hood's Sarsaparilla to overcome the weakness and languor which are so common at this season, why are you not doing the same? When you know that Hood's Sarsaparilla has power to cure rheumatism, dyspepsia and all diseases caused by impure blood, why do you continue to suffer? Hood's cures others, why not you?

Hood's Pills are prompt and efficient. 25c.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

One Bottle Cures.

DEAR SIRS,—My little sister Violet woke up frightened one night and was picking her nose very much. She looked as if she would take convulsions, but mamma gave her Dr. Low's Pleasant Worm Syrup, and one bottle cured her.

STOCKS IN NEW YORK.

A Considerable Falling Off in Point of Activity—Quotations Fractionally Higher.

NEW YORK, Sept. 6.—The stock market to-day showed a considerable falling off in point of activity as compared with Thursday, but the distribution of business was relatively good. Fractionally higher quotations for American securities in the London market induced firmness at the opening here, and fractional advances occurred in the initial dealings. The market, however, developed weakness at an early stage, owing to the expectations of large exports of gold, which had been foreshadowed the previous day. After mid-day the tone of the general market strengthened. Bar silver 67 cents.

The German Narr Bible takes its name from an intentional error. The printer's wife had a quarrel with her husband, and to get revenge stole into his office one night and made a change in the 16th verse of the third chapter of Genesis. She altered the word Herr, Lord, to Narr, fool. The result of the jest was that her husband was hanged and she was imprisoned for life.

For a long time I suffered with Rheumatism in the Back so severely that I could not even sit straight. My wife advised a D. & L. Menthol Plaster. I tried it and was soon going about all right. S. C. HUNTER, Sweet's Corners.
Price 25c.

"THE TRIUMPH OF LOVE

IS HAPPY, FRUITFUL MARRIAGE."

Every Man Who Would Know the Grand Truths; the Plain Facts; the New Discoveries of Medical Science as Applied to Married Life; Who Would Atone for Past Errors and Avoid Future Pitfalls, Should Secure the Wonderful Little Book Called "COMPLETE MANHOOD and How to Attain It."

"Here at last is information from a high medical source that must *work wonder* with this generation of men."

The book fully describes a method by which to attain full vigor and manly power.

A method by which to end all unnatural drains on the system.

To cure nervousness, lack of self-control, despondency, etc.

To exchange a jaded and worn nature for one of brightness, buoyancy and power.

To cure forever effects of excesses, overwork, worry, etc.

To give full strength, development and tone to every portion and organ of the body.

Age no barrier. Failure impossible. 2,000 references.

The book is *purely medical and scientific*, useless to curiosity seekers, invaluable to *men only who need it*.

A despairing man, who applied to us, soon after write:

"Well, I tell you that first day is one I'll never forget. I just bubbled with joy. I wanted to hug everybody and tell them my old self had died yesterday and my new self was born to-day. Why didn't you tell me when I first wrote that I would find it this way?"

And another thus:

"If you dumped a cartload of gold at my feet it would not bring such gladness into my life as your method has done."

Write to the ERIE MEDICAL COMPANY, Buffalo, N.Y., and ask for the little book called "COMPLETE MANHOOD." Refer to this paper, and the company promises to send the book, in sealed envelope, without any marks, and entirely free, until it is well introduced. au21

Highest of all in Leavening Power.—Latest U. S. Gov't Report

Royal Baking Powder

ABSOLUTELY PURE

FROM CHINA AND JAPAN.

The N. P. Liner "Tacoma" Arrives After an Uneventful Passage Lasting Sixteen Days.

After complying with the Dominion quarantine regulations at William Head, the Northern Pacific steamship Tacoma entered port between 8 and 9 o'clock last evening. Her voyage from Yokohama was uneventful; the weather was fine and the only sail sighted was that of a sealer heading this way, presumably from the Copper islands. J. Campbell, the newly appointed purser of the Tacoma, gives the following statement of the trip: "Left Yokohama on the 20th of August, and for the first two or three days had heavy squalls and head seas, after which the weather cleared up and remained fine during the rest of the voyage. The 180th meridian was crossed on the 28th ult., and Race Rocks was rounded at 4:30 p.m. yesterday." Purser Campbell was a clerk in the office of Fairfield & Co.'s shipbuilding works, England, and was sent out to the Hanghow, one of the N. P. Co.'s newly chartered vessels. In this, however, he was disappointed, the Hanghow having but recently struck in a typhoon, sustaining considerable damage. Her repairs are still in progress at Yokohama, and when completed she will probably be the best passenger steamer on the line. For Victoria the Tacoma brought twelve passengers all told, there being seven Japs, six Chinamen and one European. For Tacoma the steamer has twelve Chinese and one Jap, and as saloon passengers, J. Hogan-Armadale, J. L. Boybe, and J. E. Ritching. The first mentioned is a theatrical man, formerly a member of Henry Irving's Lyceum Co., who is returning to England after a very successful season's work in the Orient. J. L. Boybe is a missionary returning from inland China. The Tacoma having left Yokohama three days before the Empress of China, which arrived on Sunday, brings no later news. Her Victoria cargo has already been published, and the consignments of tea which form the bulk of her other freight are about the last shipments of this year's crop.

DIED.

Barrister J. A. Russell, of Vancouver, is in the city.

J. H. and Mrs. Senkler, of Vancouver, are in the city.

Rev. Father Fay, of Vancouver, is paying the Capital a visit.

Mrs. Wilmot returned last evening from a visit to Mainland friends.

W. H. and Mrs. Dorman returned from a visit to the Mainland last evening.

Hon. Justice McCreight is down from Westminster and a guest at the Oriental.

Mrs. D. Withrow arrived down from the Mainland by the Charmer yesterday evening.

J. A. Thomson, steamboat inspector, returned last evening from a visit to the interior.

Captain L. A. Bailey, wife and son came over from Seattle by the Rosalie yesterday morning.

Hon. D. W. Higgins, Mrs. Higgins and their son Paul left for the Sound by last evening's steamer.

Hon. P. O'Reilly, of Ashdowne and Mrs. Green, and W. C. Ward arrived home by the Mainland steamer yesterday evening.

T. M. Allen and Mrs. Allen, Philadelphia; and Miss A. Stokes, Morristown, N.S., are among those registered at the Dallas.

D. W. Gillies, of the B.C. Cattle Co., and A. McQuaen, of the Lake of the Woods Milling Co., were passengers from Vancouver yesterday evening.

Hamilton Abbott arrived over from Vancouver last evening to take the position in the C.P.R. office here recently vacated by Mr. J. McNicholl, who has been appointed agent for the company at Whatcom.

H. D. Helmcken, Q.C., M.P.P., arrived home from an extensive and pleasant trip to the Old Country yesterday evening, bringing with him a bride in the person of a lady well known to Victorians, both as Mrs. Gerow and Mrs. Goodwin. Mr. and Mrs. Holmcken are staying at the Hotel Dallas, where they received last evening the congratulations of many friends.

The leader of the Kucheng riots have been arrested. An attempt was made by the Chinese soldiers to kidnap this person, in the hope of securing the reward which had been offered for his delivery to the authorities. The total number of arrests thus far of those concerned in the Kucheng massacre is 130. Twenty-three of that number have been convicted, but up to this time sentence has not been passed upon any of them. The viceroy of Fukien is demanding the right to review the evidence at the trials.

Alfred Bingen, of the firm of Bingen Bros., bankers, of Genoa, who recently made a disastrous failure, has been arrested at Amsterdam.

A DESPERATE CRIMINAL

Breaks Jail at Quesnelle and Attempts an Officer's Life With His Own Revolver.

Recaptured With a Shot Through His Thigh After an Exciting Chase.

A special to the COLONIST from the Horsefly announces that the Chinese prisoner who broke jail at Quesnelle Forks on the 30th August has been recaptured by Constable Bain after an exciting chase, and committed for trial at the Clinton assizes on the 26th instant.

The Celestial, whose name is not given, had been caught in the act of breaking into Veith & Borland's store at the Forks, and formally committed by Mr. William Stephenson, the government agent and resident justice of the peace. The attempt at robbery had been made on the night of August 21, and nine days later the prisoner managed to cut his way out of the cell and make good his escape, taking with him Constable Bain's revolver, a hatchet and several other articles belonging to the jail.

The escape was quickly discovered, and Bain gave chase in the darkness, coming up with the Chinaman within an hour. The fugitive made no hostile move until the officer was quite near, and then opened fire upon him point blank with his own revolver. After two shots, both of which were dangerously and unpleasantly close, the Chinaman turned and bounded into the bush.

Realizing that nothing could be done until morning Constable Bain laid his plans to again take up the chase on the coming of daylight. The trail of the fugitive indicated that he was making for Beaver lake, and the officer by taking another route and riding hard managed to reach the objective point in advance of his man. At Beaver lake the government agent, Mr. Stephenson, joined forces and the track was again picked up, showing that the fugitive was still making for the lake.

Having verified Constable Bain's theory, the country being a most difficult one to work in, the pursuers got between the fugitive and the lake, Bain taking up a position on the road bridge over which the escaped prisoner would be obliged to pass, while Stephenson went on to the lake, posting men at several intermediate points.

Two hours later the Chinaman reached the bridge, and on being ordered to give himself up, again opened fire on Bain with that officer's revolver.

In response Bain fired a shot with his Winchester over the Chinaman's head, thinking this would frighten him and put an end to hostilities.

The only result was, however, that the Celestial took more careful aim, and seeing that his life was the hazard of the game Bain sent a rifle bullet through the man's thigh, at a point a little below the hip.

He was then secured and his wound attended to by Dr. Watt, who found that though painful it was not likely to prove serious. The prisoner is now progressing favorably, and unless the unexpected happens, will be quite sufficiently recovered to stand his trial at Clinton on the 26th.

SHOT DEAD.

Thomas Williams Accidentally Killed at Prospect Lake Yesterday Morning.

Struck in the Neck by a Bullet Intended for a Deer.

Thomas Williams was shot and almost instantly killed at Prospect lake yesterday morning. He and Wm. A. Rountree were visiting at Mr. Campbell's ranch at the lake and yesterday morning between eight and nine o'clock started off to hunt for deer. Each man was armed with a Winchester rifle and after they left the house they branched off from one another, Williams going to the right and Rountree to the left. Approaching a clump of bush the men were hidden from each other's view by the trees. Rountree caught sight of a deer and raising his Winchester fired. This was followed by a cry of agony from the direction in which he shot, and Rountree, in great alarm, rushing over to the spot, found Williams lying on the ground with blood flowing from a wound in the left side of the neck. The men were so near the house that Mr. Campbell also heard the cry, and fearing something was wrong hurriedly made his way to the place with a flask of spirits which happened to be lying on a table in the house.

Mr. Campbell and Rountree reached Williams almost at the same time, only to find that the unfortunate victim of the accident was dead. The bullet had struck him fair in the neck and apparently had ranged downward through the body, with almost instantly fatal results. The provincial police were at once notified and constable McKenna went out to the lake. The body was left where it had fallen until the coroner's jury view it. It was decently covered up, a tent placed over it and a guard left there for the night. Mr. Rountree was placed under arrrest pending the inquest, which will be held this morning. The dead man was an old resident of Victoria. He was 55 years old, a carpenter by trade, and lived on North Park street. He was a widower, three daughters surviving him.

Fatal Fight Between Squaws.

WHEATLEY, Ont., Sept. 6.—This morning some Indians near here went to Leamington, where they secured liquor and got drunk. On their return home two squaws, Mrs. Joseph Peters and Mrs. Thos. Dodge, got into a fight which resulted in the latter being struck over the head with a club and instantly killed.
